

Cloud Computing
Sem-6

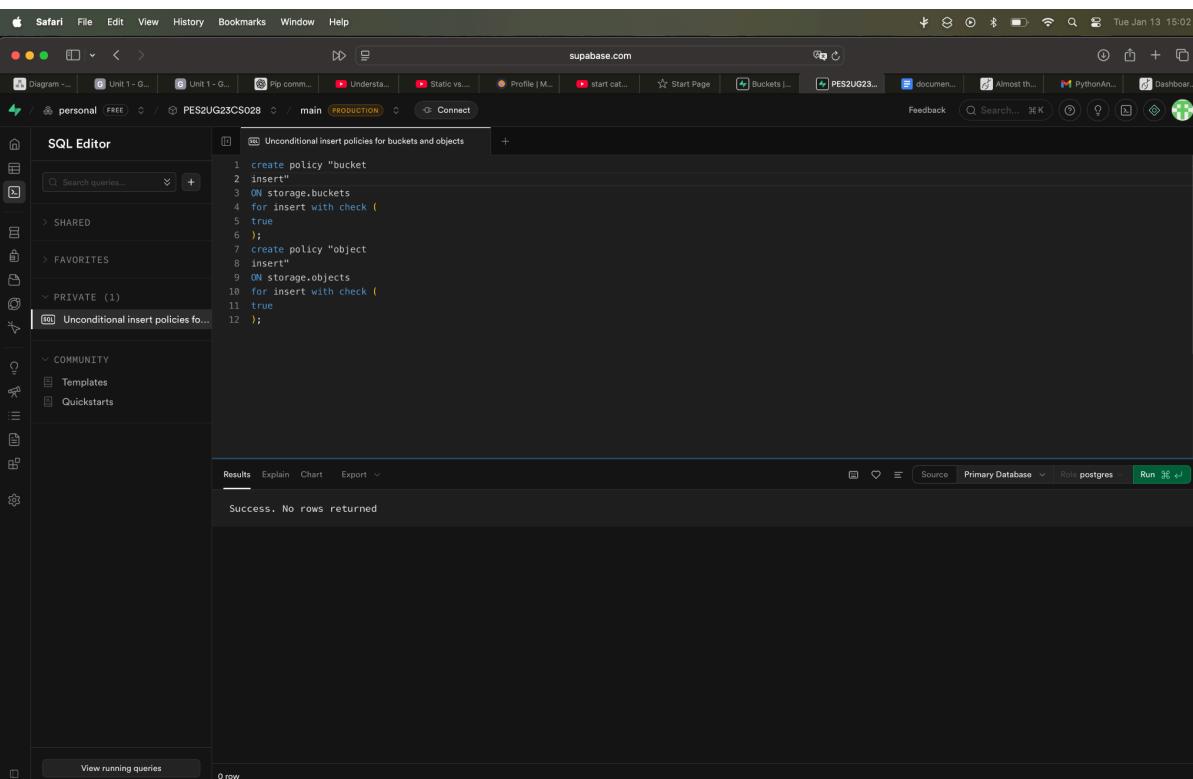

Name: Adithya Mallya	SRN:PES2UG23CS028	Section: A
----------------------	-------------------	------------

The Supabase dashboard for project PES2UG23CS028. The top navigation bar shows 'personal' (FREE), 'PES2UG23CS028', 'main (PRODUCTION)', and 'Connect'. The dashboard displays 'Tables: 0', 'Functions: 0', and 'Replicas: 0'. A green 'Project Status' button is visible. The main area features a 'Welcome to your new project' message and a 'Build out your database' section with a todo table example:

	id	task	status
1	1	Create a project	Complete
2	2	Read documentation	Complete
3	3	Build application	In progress
4	4	Connect Supabase	In progress
5	5	Deploy project	Not started
6	6	Get users	Not started
7	7		
8	8		

Below this, there's an 'Explore our other products' section with links to Authentication, Storage, Edge Functions, and Realtime.

The Supabase SQL Editor interface. The left sidebar shows 'SQL Editor' with a search bar and a tree view of 'SHARED', 'FAVORITES', and 'PRIVATE (1)'. The 'PRIVATE (1)' node is expanded, showing a file named 'Unconditional insert policies for buckets and objects'. The main editor area contains the following PostgreSQL code:

```
1 create policy "bucket"
2   on storage.buckets
3   for insert with check (
4     true
5   );
6
7 create policy "object"
8   on storage.objects
9   for insert with check (
10    true
11  );
12
```

The results panel at the bottom shows 'Success. No rows returned' and a note '0 row'.

The screenshot shows the PythonAnywhere dashboard. At the top, there's a green banner with the text "Your email address has been confirmed. You can manage your email preferences from this page." Below this, the dashboard header includes "Dashboard" and other navigation links like "Consoles", "Files", "Web", "Tasks", and "Databases". The main content area has sections for "Recent Consoles", "Recent Files", "Recent Notebooks", and "All Web apps". Each section has a small icon, a title, and a brief description. For example, the "Recent Notebooks" section says "Your account does not support Jupyter Notebooks. Upgrade your account to get access!". There are also buttons for "Open another file" and "Browse files". On the right side, a welcome message says "Welcome, PES2UG23CS028" and a blue button says "Upgrade Account".

The screenshot shows the PythonAnywhere "Files" interface. The URL in the address bar is "/home/PES2UG23CS028/cclab1". The top navigation bar includes "Dashboard", "Consoles", "Files", "Web", "Tasks", and "Databases". Below this, there are two main sections: "Directories" and "Files". The "Directories" section has a text input field "Enter new directory name" and a button "New directory". The "Files" section has a text input field "Enter new file name, eg hello.py" and a button "New file". A file named "flask_app.py" is listed with a download icon, a timestamp "2026-01-13 09:35", and a size "1.4 kB". Below it is a button "Upload a file" with the note "100MB maximum size". At the bottom of the page, there's a copyright notice: "Copyright © 2011-2026 PythonAnywhere LLP – Terms – Privacy & Cookies".

The screenshot displays the Vercel dashboard for a project named "adithyamallya". At the top, there are tabs for Overview, Deployments, Analytics, Speed Insights, Logs, Observability, Redirects, Firewall, AI Gateway, Storage, Flags, and Settings. The "Deployments" tab is selected. Below the tabs, there is a search bar and a "Visit" button. The main content area shows a "Production Deployment" card for "PES2UG23CS028". The deployment was created 57 seconds ago by "adma77ya". The status is "Ready". The source code is "main" with a commit hash "3dce4a3" labeled as the "Initial commit". There are buttons for "Deployment Settings" and "Recommendations". A note says "To update your Production Deployment, push to the main branch." Below the deployment card, there are three cards: "Firewall 24h" (Active - All systems normal), "Observability 6h" (Edge Requests 0, Function Invocations 0, Error Rate 0%), and "Analytics" (Track visitor). A callout for "Vercel Agent" encourages users to "Code reviews that catch bugs before they reach production. Get started with \$100 in free credit." with "Dismiss" and "Enable" buttons.
